Operating instructions – Lite Mode

SecuTronic

TSE 3003 • Operating instructions – Lite Mode • SecuTronic

To open:

Press the ON/Enter key.
Enter your 6-figure code (works setting: 123456).
Turn knob.

Changing the code:

Press the ON/Enter key.
Press the function key.
Press the ON/Enter key twice.
Enter your old 6-figure code.
Press the ON/Enter key.
Enter your new 6-figure code. Press the ON/Enter key.
Enter your new 6-figure code again. Press the ON/Enter key.
When display shows "Code change completed", press the function key.
If the display shows "Code wrong or entry error", start again – the old code is still valid.

Info:

Be sure to note the code and try several times with the door open!!!
Blocking times for wrong input: 1 to 20 minutes.

Changing the language:

Press the ON/Enter key.
Press the function key.
Press the "2" key.
Press the ON/Enter key.
Select the language you require using the "1" and "2" keys.
Press the ON/Enter key.
Press the function key.

Battery change:

Data which has been saved is retained in the event of a power failure.
Open the lid (see photos on cover).
Insert 3 new batteries – **type LR6**.
Dispose of old batteries in an environmentally friendly manner.
